

Project Server: Installation and Configuration Services

Important announcement from Dominic Moss; Director of Projectability: [Click Here to Read](#)

Project Server 2010 is now available.

Note: this page is no longer maintained - for information on installation please see the Project Server Installation packages from WellingtonPPM.

Installation & Configuration Services

Projectability can help you with your project server installation and configuration of Microsoft Office Project Server 2007 or 2003 . Our turnkey service is guaranteed to provide you with a fully working and tested instance of Microsoft Project Server in line with your requirements.

We can help you in determining the hardware configuration & specification for your instance of Microsoft Project Server 2007 or 2003.

Onsite Installation

Projectability consultants can design a single or multi-server implementation at your location. Our installation and configuration services comply with best practise as espoused by Microsoft Corporation.

More Installation Options

Depending upon the number of users and the need for installation verification, Projectability offers the following options:

- Project Server Verification Testing
- System testing with data population tool
- Running Project Server Health Monitor
- Configuring and running the Project Server Smoke Test utility
- Creating web sites for user training and sample data

Configuration Options

Microsoft Office Project Server 2007 or 2003 is a fully featured and powerful application that once it is installed, you will need to configure the following to realise its full potential. Projectability can help with the following to help you maximise the value of your investment:

- Configuring security accounts
- Creating Enterprise Resource Pool

- Designing Enterprise Templates
- Creating Project Calendars
- Defining Resource Breakdown Structure
- Defining Task, Resource & Project Custom Fields and Outline Codes
- Migrating existing projects to Project Server
- Creating Custom Views and Portfolio Reports
