Course Description

Projects fail for a great number of reasons but a major contributor to failure is inadequately trained or inexperienced Project Managers.

We can now offer tailored training that uses your own projects as the basis for imparting valuable insight into how to manage projects effectively. This ensures that the training is relevant to the participants so that they can hit the ground running at the end of training.

During the course we provide the participants with a series of documents, forms and tools to support them in becoming more effective project managers. These forms are provided under joint copyright for your managers to use in all their future projects.

These courses build upon our established project management training with the additional benefit of being tailored to suit your specific circumstances and requirements.

Course Objectives

Anyone wishing to exercise greater understanding and control of the projects they are managing.

Course Pricing

Contact us using the booking details email request below to ask about pricing as it is dependant upon the number of people attending and the level of preparation required.

This course is designed to suit organisations where there are several people to be trained, we recommend a minimum of 4 people attending. Prices exclude VAT at the prevailing rate.

We believe that this course represents outstanding value for money and will provide a significantly improved return on investment compared to sending your people on a public scheduled course
